INTERNSHIPS

- The internship in the field of Product analysis in Quantanics private limited in Madurai
- I completed internship as product implementation engineer in Rikun manufacturing private limited, an electronic manufacturing company in Chennai

AREA OF INTEREST

- Python programming
- Database management
- Web development
- Devops

Project

ARDUINO BASED AUTOMATIC WASTE SEGIREGATION

This project aims to develop an Arduino-based automatic waste segregation system to help manage waste efficiently and promote environmental sustainability. So A Proper Waste Management System Is Necessary To Avoid Spreading Some Deadly Diseases. The system uses sensors such as conductivity sensor, metal detector sensor, mq2 sensor and IR sensors to detect different types of waste,and motors to segregate them

WEBSITE BASED PROJECT
